

## Structure

Front plate: Hard steel plate (SPCCID)

Rear plate: Deep level tensile steel plate (ST14)

Filler: Portland cement

Cover: High temperature resistant, high wear-resistant, non-combustion-decorative Board (HPL, PVC, ceramic tile, rubber, etc)

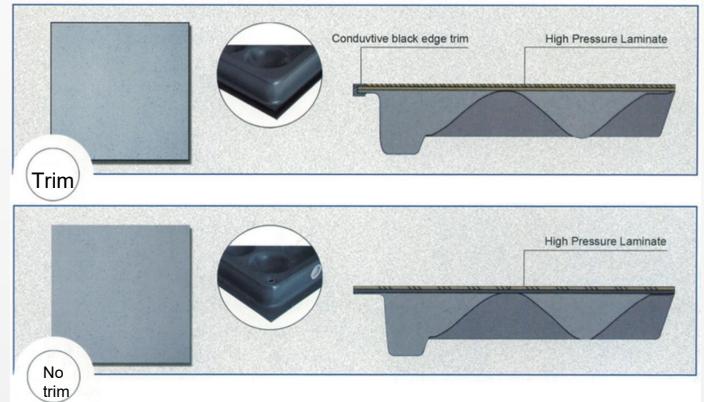

Front and rear steel plate stamping and welding, shell for phosphating and spraying

## Installation Drawing

## Classification of products

## Technology parameter

Model	Size(mm)	Concentrated Load Deflection ≤ 2mm			Uniform distributed load (N/m <sup>2</sup> )	Ultimate load (N)
		LB	N	KG
